

At Fresh N Lean, we pride ourselves on having suppliers that share our vision for better animal welfare. That's why proactively adopted the Better Chicken Commitment, only source cage-free eggs, and support other animal welfare practices.

For example, we don't offer pork in any of our meal plans because conventional farms don't meet our wellness standards for pigs. Additionally, we encourage all companies to eliminate the use of gestation and farrowing crates to create more sustainable and humane standards for farm animals and livestock.
